

Center for Advanced Technology (CAT) Progress Report for Interim Reporting Requirement

Please answer the following questions about your CAT-funded project and return to Marla Coppolino (mlc247@cornell.edu) by January 15, 20xx. The information pertains only to the period of time between July 1 and December 31, 20xx.

PI Name(s):

Project title:

Industry partner company:

Contact person:

Title:

Phone:

Email:

Questions:

- 1) Provide a brief summary (150 words or less) describing any advances and milestones of your CAT-funded research project in layman's terms (no proprietary information). Include any new significant accomplishments, delays, or challenges, including resolution thereof, if applicable.
- 2) List any new invention disclosures filed, new licensing agreements, and/or patents awarded, including title, inventors, and current stage.
- 3) Has a new startup company formed?
- 4) Any new grants received as a result of your CAT project? If so, please include project name, all PIs, funding source, amount, time period, and description, and potential commercial relevance.
- 5) List any successful K-16 interactions designed to foster student interest in scientific careers or provide workforce training (for any level).
- 6) List the individuals (graduate research assistants, interns, and any others) who were supported by or worked on your CAT funded project.
- 7) *For previous CAT recipients only:* List CAT supported students and research assistants who are now employed within New York State. Include place of employment and title.

Submit to:

Marla Coppolino, Director of Business Development and Outreach, CAT
